European Hub for Environmental Compliance

- ◆ WEEE
- ◆ BATTERY
- ◆ PACKAGING

Your Single Point
of Contact
for a European Solution

Managing your compliance in the EU

① How to deal with more than 30 national legislations ?

② Are you willing to manage compliance and recycling centrally ?

Our one stop service for you

With our **modular offering** select the countries and services you want to contract :

- 100% compliance
- Covering **all European member states**, EFTA countries and further surrounding countries
- Dedicated **central IT system** for all European PoM declarations (Put on the Market)
- Set up of **Authorized Representatives (AR)**
 - Take **back & recycling** programs
- Fulfillment of your obligations in a **simple** and **reliable** way, keeping internal capacities available for your core business
- **Attractive** and **transparent** pricing
- **Option** to completely **outsource** your compliance management

Simplify compliance & extend market positioning

WEEEllogic ensures the fulfillment of your producer obligations from WEEE, waste battery and packaging legislation across Europe.

ADMINISTRATION, REGISTRATION & REPORTING

- **Register** with responsible authorities
- Contract with local compliance schemes
- Submission of your data for mandatory declarations
- Finance take back and recycling
- **Centralize** regular **declarations** and PoM
- Provide necessary **information to end-users**
- Set up of **Authorized Representatives** (AR)

MONITORING COMPLIANCE REQUIREMENTS

- Monitor legislation
- Annually update your registrations
- Develop regular declarations for authorities
- **Prepare your budgets** and necessary accruals
- Manage your contracts with local compliance schemes
- Voluntary obligations take over (from clients)

TAKE BACK & RECYCLING

- Organize **take back and pickup** e.g. from your major customers, SMEs, administration and waste holders' premises
- Process and track orders with web-based system
- Manage **treatment and recycling activities**, prepare required documentation (EPEAT...)
- Implement brand/model sorting, access to spare parts, data erasure and others
- Help implement a circular economy approach

LEGAL ASSESSMENT

- Identify your position in the value and sales chain
- **Check your distribution model and identify the obligated party**
- Identify your real scope: geographically and thematically : is it really 38 x 3 (WEEE, waste batteries, packaging) = 114 different obligations ?
- Involve your sales and distribution partners

Your European compliance hub

- We act as a **central point of contact** for Europe, providing a comprehensive portfolio for end of life compliance
- **Dedicated consultants** guide you through all necessary steps
- WEEEllogic is operated by a **multilingual team**
- Our standardized service package offers a **cost-effective** solution to compliance

“ WEEEllogic puts you into control of your compliance needs and optimizes your time “
